

Treasure Hunt:

An adventurous game involving solving riddles and following clues to find hidden treasures or reach a specific destination. It requires teamwork, problem-solving, and quick thinking, making it an exciting and competitive activity.

Treasure Hunt Event Document

1. Flow of Event:

Introduction:

Welcome participants and brief them on the rules.

Provide a theme or background story for the treasure hunt.

Team Formation:

Allow participants to form teams (specify the maximum team size).

Provide each team with a unique team name or identifier.

Instructions and Clue Distribution:

Distribute the first clue or set of clues.

Specify the format of clues (riddles, puzzles, physical challenges).

Clues lead teams to various locations on the campus.

Challenges and Checkpoints:

At each location, teams must complete challenges or tasks to receive the next clue.

Set up checkpoints with event volunteers to monitor progress.

Final Destination:

The final clue leads teams to the ultimate treasure location.

The first team to reach the treasure or solve the final puzzle wins.

2. Points System:

Points awarded for completing challenges, solving puzzles, and reaching checkpoints.

Bonus points for creativity, teamwork, and speed.

Deductions for rule violations or failure to complete tasks within the given time.

3. Selection Criteria:

Teams are selected on a first-come, first-served basis during registration.

Ensure diversity in team compositions for a fair and inclusive competition.

Provide guidelines on team conduct and sportsmanship.

4. Winner's Ranking Criteria:

The first team to reach the final destination is the winner.

In case of multiple teams reaching simultaneously, the team with the highest overall points wins.

Consolation prizes for the second and third-place teams.

5. Other Associated Rules:

event Duration: Specify the start and end times for the treasure hunt.

Performance Duration: Teams must complete the event within a specified time frame.

Rules of Conduct: Emphasize fair play, respect for campus property, and adherence to event guidelines.

6. Preferred Slot:

Allocate a time slot during the cultural fest that ensures maximum participation.

Consider the preferences of the participants, if possible.

7. Venue:

Provide a map with marked locations for clues and challenges.

Specify the starting point and the final destination.

8. Other Needs:

Technical Requirements: List any technology, equipment, or props required.

Volunteers: Specify the number of event volunteers needed.

Safety Measures: Outline emergency procedures and first aid arrangements.
